

FATHER'S DAY NECKTIE NAPKIN FOLD INSTRUCTIONS

1
Start with square Chinnet Dinner Napkin completely unfolded. Fold the right corner diagonally toward you - laying it down past the center of the napkin.

2
Do the same with the left corner, fold it diagonally toward you and press it down touching the previous fold.

3
Repeat with the right corner, fold it diagonally toward you and press it down past the center of the napkin.

4
Again with the left corner, fold it diagonally toward you and press it down next to the previous fold. Now you have a shape representing that of a necktie.

5
Fold the top of the "tie" half of the way down and to the right.

6
Turn the tie over facing upward and fold the flap on the left across the front of the tie.

7
Again, turn the tie over facing downward and fold the flap on the right across the back of the tie. Fold excess napkin down along the back of the tie.

8
Turn the tie back over facing upward.
